

## CABINS & SEMICABINS

### Cabine

The forklifts **Series Elephant 2500 e 3000** can be equipped with a high visibility cab made of steel and special glass. The cab can be mounted at any time after the purchase of the machine in only a few hours of work.

Thanks to the cabin, the operator can work comfortably also in hard climate conditions as it can be equipped both with heating system as well as air conditioning.

<i>Code</i>	<i>Description</i>
MD2500CAB	Complete cabin with two-section doors.
MDRISC	Heating system
MDCOND	Air conditioning

The forklifts of the **Series Elephant 35/20, 25, 30 e 35** can be ordered with a high visibility cabin made of a steel frame and special glass. Thanks to the cabin, maximum comfort is granted to the operator also with bad weather.

Heating and air conditioning system are recommended options.
